Certifications

CIW HTML & CSS certification

Summary

Self-taught web designer with 2+ years of experience in HTML, CSS, and WordPress. Specializing in visually compelling and user-friendly websites, creative and simple logo designs, and translation services. Committed to bringing digital visions to life through collaboration.

Experience

While I'm in the early stages of my journey in web design, my passion for creativity and commitment to responsibility are the driving forces behind my work. Though I may not have extensive experience, I assure you that your project will be approached with fresh ideas, dedication, and a strong sense of responsibility. Trust that your vision is in capable hands.

Education

Started taking online courses for Wordpress Development, Front-end Development, Graphic design, SEO and more...
